"Together Towards Success"

Information & Communication Technology Course Description (Academic Year 2020-2021)

ICT Curriculum of RIS is Digital Literacy and Technology Skills to Support the skills identified for each grade level align to the Common Core State Standards (CCSS) for Mathematics, English Language Arts & Literacy in History/Social Studies, Science, and Technical Subjects as well as skills required taking the Smarter Balanced Assessment Consortium's (SBAC) Computer Adaptive Assessments. Using computers can enhance learning opportunities for a wide range of students because it caters for a variety of learning and teaching styles.

All ICT Essentials courses are designed to provide teachers with the topics, tools, and strategies they need to teach appropriate technologies in the context of their subject area. All ICT Essential courses are built in lesson quizzes and activities that are tracked and graded for you, leaving you more time to spend on delivering the course material. The possibilities are endless and we provide the students with Professional Development to assist in finding the most beneficial ways to incorporate the curricula.
